Education

Parsons School of Design - The New School

May 2026

MS in Strategic Design & Management & Minor in Impact Entrepreneurship | *Dean's List, Merit Scholarship*

Drexel University

June 2021

BS in UX & Interaction Design | *Honors, Dean's List, Westphal Scholarship*

Work Experience

UX Researcher - Arrive (via Craft)

June - Dec 2025 | Remote

- Led 3 strategic workshops with ~28 senior stakeholders across product, sales & executive leadership, synthesizing cross-functional insights into a two-year B2B roadmap for a \$750M global mobility platform.
- Reframed a narrow integration pilot into a broader self-serve admin experience strategy, securing 10+ enterprise signups through strategized outreach with sales to enterprise customers across NA and EU.
- Evaluated a new market segment through 25+ third-party recruited interviews - recommended deprioritizing expansion in favor of scoped core UX improvements that leadership adopted.

Product Design Studio - Microsoft

Sep - Dec 2025 | New York, NY

- Collaborated with Microsoft's Inclusive Design team to design an AI-powered assistant for specialized educators - conducted user research with neurodivergent learners and presented the product vision to Microsoft stakeholders and executives.

Co-Founder & Design Lead - Tashvi.ai

Aug 2025 - Present | New York, NY

- Led design and product strategy for an AI platform that turns jewelry sketches into photorealistic renders in seconds, growing to 2,400+ users and 22 paying customers in month one.
- Defined AI UX patterns and end-to-end interaction models, bridging design and engineering using Figma, Claude Code, and Cursor, shipping and validating MVP in 6 weeks through continuous user testing.

UX/UI Designer II - ZoomInfo

May 2022 - April 2024 |

Remote

- Designed the end-to-end search UX for TalentOS, a recruiting platform used by 1000+ companies to source from 150M+ candidates - reduced sourcing time by 27% and was promoted to Lead Designer within a year.
- Designed core UX workflows for ZI Copilot, the company's largest product initiative - interviewed 20+ customers and partnered with 100+ stakeholders across global teams to consolidate 12 unique products and acquisitions into a unified AI-driven experience for 35,000+ customers.

UX Designer - Johnson & Johnson

Oct 2021 - Feb 2022 | Remote

- Led end-to-end design of J&J's 2021 global ESG web reports during a landmark year for the company's COVID-19 response - conducted competitive research across 25+ industry reports and delivered fully responsive, WCAG-compliant experiences for a global audience of stakeholders and regulators.
- Optimized navigation through A/B testing (90% user preference) and contributed reusable components to J&J's design system.

Leadership & Involvement

Mentor - AIGA NY

Feb 2026 - Present

Mentoring 2 emerging designers on UX craft, portfolio strategy, and career navigation through AIGA NY's selective Applied Mentorship Program.

Figma Campus Leader - Parsons

June 2025 – Present

Hosted 20+ design workshops and events to drive Figma adoption on campus, working directly with the Figma team. Built templates, shared resources, and cultivated a design community of 500+ students.

Founder - PrabhKiSeva

Sep 2019 – Present

Lead a non-profit providing 200+ monthly meals to the local community, managing 20+ volunteers and partnering with local organizations to run food drives and community events.

Awards & Certifications

FigBuild 2025 School Winner

2025

Won at Figma's inaugural national design competition (170+ students, 60+ teams)

HackAI Hackathon Judge

Mar 2026

Judged Best Use of Figma / Best UX track at UT Dallas's MLH-recognized hackathon.

IDEO U - AI x Design Thinking Certificate

May 2025

Completed IDEO's program on integrating AI into human-centered design processes.

Skills & Interests

Design

Wireframing, Prototyping, Interaction Design, Design Systems, Visual Craft, Usability Testing, User Interviews, Concept Testing, User Flows, High Fidelity Design, Journey Mapping, Competitive Analysis, Storytelling

AI & Emerging Tools

Designing for AI-driven features (copilots, intelligent automation), Prompt Engineering, Figma Make, Claude, Midjourney, Cursor, Lovable

Programming

HTML, CSS, JavaScript

Tools

Figma, Sketch, Webflow, Adobe Creative Suite, JIRA, Confluence, Amplitude, Datadog, Notion, Grain.ai, Typeform, UserTesting, Canva, Miro, Ableton
