

Experience	Standard Chartered Bank - Lead UX/UI Designer (Contract via Nuaav)	Apr 2026 - Present
	- Led end-to-end product design for a 6-agent AI platform for Relationship Managers, translating complex client intelligence, portfolio rebalancing, and CRM workflows into a unified experience projected to improve workflow efficiency by ~37%; prototype secured executive approval for a 15-user pilot. - Built functional React prototypes using Figma MCP and Claude Code, translating complex agent orchestration and deterministic logic into interactive testbeds to validate workflows and de-risk interactions before production. - Designed a transparent AI audit and evaluation system that traces generated recommendations to bank policy clauses, giving Relationship Managers visibility into agent reasoning and supporting human-in-the-loop review.	
	Tashvi.ai - Co-Founder & Lead Product Designer	Mar 2025 - May 2026
	- Took an AI-native product from 0→1, leading product strategy, UX, prototyping, and launch of a responsive jewelry design platform that grew to 10,000+ users and \$50K ARR within 6 months. - Ran continuous customer discovery and A/B testing across generative AI workflows, reducing design-pipeline drop-off by 22% and establishing rapid user-feedback loops. - Built a scalable Figma design system and used Cursor + Claude Code to move directly from design into functional React prototypes and production-ready frontend workflows.	
	Arrive - Sr. UX Researcher (Contract via Craft)	Jul 2025 - Dec 2025
	- Led customer discovery and strategic workshops with Product and Sales leadership across North America and Europe, translating research into a 2-year B2B product vision for a \$1B mobility platform and aligning cross-functional roadmaps around validated customer needs. - Owned end-to-end research across 25+ customer interviews spanning fleet management and expense workflows, rapidly synthesizing findings into high-fidelity concepts and prototypes used to validate product direction.	
	ZoomInfo - UX/UI Designer II	May 2022 - Apr 2024
	- Redesigned complex enterprise search workflows for SalesOS into a conversational AI-driven discovery experience, validating the hybrid chat-and-filter interaction through usability testing with an 87% preference rate and 27% faster search. - Co-led a design task force to unify the setup of 12 distinct products into a centralized enterprise admin platform. Interviewed 50+ internal PMs and designers to map legacy feature nuances, distilling multi-team provisioning workflows into a streamlined one-time configuration, increasing day-zero customer satisfaction by 32%. - Scaled Muze, ZoomInfo's Design System with 1,000+ components, establishing reusable interaction patterns and WCAG 2.1 AA standards across product teams.	
	Johnson & Johnson - UX Designer (Contract via JK Design)	Jun 2021 - Feb 2022
	- Designed and validated high-fidelity experiences for J&J's global ESG reporting platform, achieving a 90% navigation preference in usability testing. - Expanded the enterprise design system with 30+ reusable, WCAG 2.1 AA-compliant components, enabling future annual reports to reuse established patterns and reducing repeated design and development effort.	

Education	Parsons School of Design - M.S. in Strategic Design & Management	2024 - 2026
	Focus in Product Strategy, Innovation & AI Minor in Impact Entrepreneurship Dean's Scholar	
	Drexel University - B.S. in UX & Interaction Design	2017 - 2021
	Honors Graduate Westphal Scholarship	

Recognition	AIGA NY - Mentor	Feb 2026 - Present
	Figma - Campus Leader	Jun 2025 - May 2026
	FigBuild 2025 - Best Team Winner	2025
	IDEO U - AI x Design Thinking Certificate	2025
