

Experience	Standard Chartered Bank – Lead UX/UI Designer (Contract via Nuaav) Apr 2026 – Present - Secured an executive SOW for a 15-user pilot by designing an end-to-end experience for a 6-agent AI platform, automating client intelligence, portfolio rebalancing, and post-meeting CRM logging to boost Relationship Manager workflow efficiency by ~37%. - Engineered functional React prototypes using Figma MCP and Claude Code, translating complex agent orchestration and deterministic logic into interactive testbeds to validate flows and de-risk interactions prior to production. - Championed responsible AI design by architecting a transparent Audit UI and evaluation scorecard system, mapping every generated recommendation to bank policy clauses to guarantee human-in-the-loop compliance.
	Tashvi.ai – Co-Founder & Lead Product Designer Mar 2025 – May 2026 - Launched a fully responsive AI jewelry design platform, scaling from 0 to 10,000+ users and reaching \$50K in ARR within 6 months. - Advocated for the customer through continuous A/B testing on generative AI workflows, reducing user drop-off across the design pipeline by 22% while establishing iterative feedback loops. - Architected a scalable Figma design system using variables, tokens, and auto-layout, accelerating React frontend development via AI-assisted workflows (Cursor, Claude Code) and rapid prototyping.
	Arrive – Sr. UX Researcher (Contract via Craft) Jul 2025 – Dec 2025 - Facilitated strategic workshops with senior product and sales leadership across NA and EU, pressure-testing a 2-year B2B product vision for a \$1B mobility platform that successfully aligned cross-functional roadmaps and raised the platform's internal executive grade from an average 'C' to an 'A'. - Spearheaded end-to-end research operations for 25+ customer interviews, creating discussion guides, outreach templates, and compensation logistics. Sourced diverse segments by coordinating with Sales and utilizing Craigslist for niche service drivers, leveraging Grain AI to rapidly synthesize transcripts into a high-fidelity vision prototype.
	ZoomInfo – UX/UI Designer III May 2022 – Apr 2024 - Transformed manual search workflows into a conversational, AI-driven discovery interface for ZoomInfo's flagship product, SalesOS. Validated the hybrid chat-and-filter UX through usability testing, achieving an 87% user preference rate and reducing search time by 27%. - Co-led a design task force to unify the setup of 12 distinct products into a centralized enterprise admin platform. Interviewed 50+ internal PMs and designers to map legacy feature nuances, distilling multi-team provisioning workflows into a streamlined one-time configuration, increasing day-zero customer satisfaction by 32%. - Governed <i>Muze</i>, a 1,000+ component Figma design system, standardizing UI across disparate teams while delivering WCAG 2.1 AA accessibility compliance.
	Johnson & Johnson – UX Designer (Contract via JK Design) Jun 2021 – Feb 2022 - Designed high-fidelity mockups for J&J's global ESG reporting platform, validating the user experience to achieve a 90% navigation preference in usability testing. - Expanded the enterprise Figma design system with 30+ reusable, WCAG 2.1 AA-compliant components, improving cross-platform consistency and frontend development efficiency.
Education	Parsons School of Design – M.S. in Strategic Design & Management 2024 – 2026 Minor in Impact Entrepreneurship Dean's Scholars
	Drexel University – B.S. in UX & Interaction Design 2017 – 2021 Honors Graduate Westphal Scholarship
Leadership	AIGA NY – Mentor Feb 2026 – Present Mentoring emerging designers on UX craft and portfolio strategy.
	Figma – Campus Leader Jun 2025 – May 2026 Taught advanced Figma (systems, variables, auto layout) to 500+ students at Parsons.
	FigBuild 2025 Winner 2026 Won Figma's inaugural design competition against 1,500+ design students nationwide.
	IDEO U: AI × Design Thinking Certificate 2025 Scaled a nonprofit serving 200+ meals monthly, coordinating 40+ volunteers and community partners across Pennsylvania.
Skills	Design & Research UX/UI Design, Wireframing, Rapid Prototyping, Responsive Web Design, User Research, Usability Testing, A/B Testing, Workshop Facilitation, Journey Mapping, Accessibility (WCAG 2.1 AA)
	Tools & Technical Figma (Design Systems, Variables, Auto Layout), AI-Assisted Prototyping (Cursor, Claude Code, v0, GitHub Copilot, Grain AI), React, HTML/CSS, Agile Methodologies
